

## Summer homework for incoming ALGEBRA HONORS STUDENTS:

Students entering Algebra Honors need to complete:

- Math Nation assignment

(if you are taking an ocvs or flvs pre-algebra course over the summer to help you better prepare for algebra honors next year, you will not need to complete this assignment if you have completed enough of the virtual school course – email [dawn.freeman@ocps.net](mailto:dawn.freeman@ocps.net) if you have a question about this)

This assignment is to prepare you for Algebra Honors in Middle School. This year, it is especially important to complete this pre-requisite work as we finished the last 9 weeks of school with distance learning. You may not have some of the algebra foundations as solid as you would have had with face-to-face learning. When you take the initial assessment – take it seriously and use paper/ pencil! This will help you get more items correct and give you less work to complete! After the assessment, you will only be given work to complete based on your individual areas of weakness.

This summer assignment will be counted as a grade for the 1<sup>st</sup> marking period. Please allow enough time to complete this assignment.

### **Instructions for the MathNation assignment:**

Go to the Launchpad: ([launch.ocps.net](http://launch.ocps.net)) and click on the math nation tab.

If you do not see this app, please submit a tech request. To do so – go to your links folder on your desktop and find the link to submit a tech request. Find the “there is something I need” and then “applications” and “other”. Please type in Math Nation and complete the form. If it takes more than 2 days to get this resolved, please contact [dawn.freeman@ocps.net](mailto:dawn.freeman@ocps.net) and I’ll see what I can do to help!

Top left of the screen: use the drop down menu and choose the “on-ramp” Pre-algebra review

You will see this message:

**Welcome!**

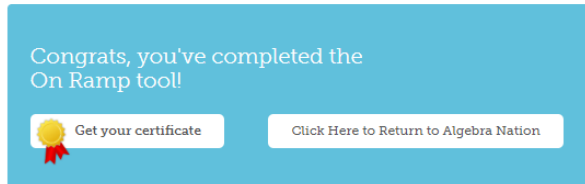

We just need to ask you a few questions before we get started...

[Let's go](#)

[No thanks](#)

Select "let's go".

Answer the questions for this 'pre-assessment'. After the assessment, you will be given lessons based on your level of understanding. The more seriously you take this and answer to your best ability, the less work you will need to do to finish this assignment! You must complete all lessons and reach the end where you will get the message:

Now, you have finished. **Print your certificate** or take a picture of it to turn in to your teacher and you will receive 100% on your summer homework!
