

Glenridge Middle School

2020-2021 Summer Geometry Assignment

The purpose of this summer work is to help prepare you for Geometry Honors in the middle grades. Students placed into this class have often skipped pre-requisite skills included in middle school Geometry standards. Our expectation is that you arrive on the first day of school able to demonstrate mastery of these pre-requisite skills. In order to achieve this, please allow yourself sufficient time to work on the problems and use additional resources when needed. The work will be counted in your first quarter grade. You will use Khan Academy to complete your assignment.
